

SIZES:

2 X 2 VOAP--/22 (Sheet-mounted)
2 X 2 sheet = approx. 8" x 8"

1 X 2 VOAP--/12 (Sheet-mounted, broken joint)
1 X 2 sheet = approx. 7.2" x 7.2"

COLORS:

- Ocean VOAPON
- Desert VOAPDT
- Sand VOAPSD
- Ice VOAPIE
- Valley VOAPVY

Appia is face-mounted with a plastic film that is removed after the tile has been installed and the adhesive has set. The film application process slightly enhances the translucence of the glass.

USAGE:

Suitable for walls and light duty floors, but is still susceptible to some scratching.

PRODUCT INFORMATION:

Glass can vary within each run and from production run to production run. Glass tile may be susceptible to scratching in handling and installation, as well as use. Make sure that during installation the tile does not become dirty with grout residue or setting materials. If this should happen, immediately clean the affected area with a sponge, and do not use abrasives, alcohol, acids or solvents. Brochure colors are intended as a guide only and may vary from actual tile. Please check tile samples before making final selections.

*** Setting Guidelines**

Glass requires special installation: only use white adhesive with high adhesion and elasticity which are especially recommended for installing glass. For complete coverage and to avoid trowel marks, we recommend back-buttering. All substrates should be properly reinforced to be sure that there is no movement. For mortar installations, the mortar bed has to be cured (less than 2% humidity) and has to have proper reinforcing.

Please refer to the TCNA handbook for specific information regarding installation of glass tile.

Vetrissimo is produced in Italy with raw materials of EU origin.
Both the raw materials and the production are done in accordance with strict European Union pollution laws.
